LALFIX GRANULE G

Premium In-Furrow Granule for Lupin.

ACTIVE INGREDIENT:

Bradyrhizobium canariense WU425 ≥ 7.5 x 10^7 CFU/g

Lupin

In-Furrow

READ ALL DIRECTIONS BEFORE USING THIS PRODUCT

HOW IT WORKS

The active ingredients in LALFIX® GRANULE G is an Australian-developed strain of Bradyrhizobium canariense. This rhizobial strain forms nodules on lupin roots and fixes atmospheric nitrogen through a symbiotic relationship with the host plant.

APPLICATION DIRECTIONS

- *Follow equipment manufacturer's calibration methods in field at time of product use. Reference the table below for specific row width and suggested application rates.*
- *Environmental conditions may affect calibration set points and overall granular flow ability. Check calibration regularly.*
- *Product bulk density: 0.70 kg/L.*
- *Ensure hopper, metering system and delivery hoses are clean from moisture, fertiliser and pesticide residue before calibration.*
- *Granules should be applied directly into the seed furrow with the seed.*
- *Higher rates of inoculant should be used where rhizobia are absent or numbers are too low for adequate nodulation, which is likely where there has been no recent legume history, and when soil or sowing conditions are likely to reduce the survival of rhizobia.*

PRECAUTIONS

Do not use beyond the expiration date. Do not store open pack of inoculant.
Avoid contact with eyes and/or dust - may cause irritation.
For further information refer to the safety data sheet (SDS).

Row Width	Recommended Rate	Area Treated
cm	kg/ha	ha/bag
15	6	32.7
18	5	39.2
20	4.5	43.6
23	3.9	50.3
25	3.6	54.4
30	3.0	65.3

STORAGE AND HANDLING RECOMMENDATIONS

The active ingredient in LALFIX® GRANULE G is a living microorganism and requires specific storage conditions to ensure viability and product performance.

- *Store in a cool, dry location in the original, unopened packaging. Store bags off the floor (use a pallet or shelving) and avoid prolonged direct contact with cold damp surfaces.*
- *Use before expiration date stated on the package. The expiration date is valid only for unopened bags stored under cool, dry conditions.*
- *Open package only when ready to use. Once open, use the entire package. Unused product should be disposed of.*
- *Net Contents may vary due to changes in moisture content during storage.*

For further information regarding application rates and timings please refer to the New Edge Microbials website ***www.nem.com.au*** *or contact the New Edge Microbials customer service team on* ***+61 2 6025 0044****.*

NET WEIGHT: 196 KG

Expiration date and batch number: See printing on bag
